

# Kiwanis' Programs inspire students and parents to be more involved!

Helping students achieve academic success.

Teaching children the importance of good citizenship.

“Bring Up Grades and Terrific Kids help raise both the parents’ and child’s self esteem. When students feel good about achieving, parents get more involved in their child’s academic life – and it shows!”

“When I arrived at Irene King Elementary School four years ago the school had a reputation for very limited parental involvement. Kiwanis’ Bring Up Grades and Terrific Kids programs changed that. The first year we launched the programs, we had an awards ceremony and five parents attended, the second year we had 20 parents. Now between 100-200 parents are there to applaud their child’s academic success!”

Walter Jamrose, Principal  
Irene King Elementary School  
Romeoville, Illinois
