Mirror, mirror

It's important to reflect. That's when you think about things you've learned. After every community service project, take time as a group to reflect. Think about your project and what you were able to do.

On the mirror below, draw a picture of your favorite part of your most recent service project. Talk about it with your K-Kid friends.

protect
moms & babies

In some countries, people don’t have the vaccines or health education that help prevent disease. That's why many babies in those countries get infected with tetanus when they're born. The Kiwanis family—including K-Kids—is helping to protect these babies and their mothers.

The Eliminate Project: Kiwanis eliminating maternal and neonatal tetanus is a partnership between UNICEF and Kiwanis. By joining forces, we’ll make progress toward an important goal: eliminating MNT from the face of the Earth.

The fundraising campaign will raise US$110 million by 2015. And K-Kids can help. Talk to your advisor about how your club can get involved. Learn about MNT and what we can do about it. Help protect the connection between mothers and their babies.
